

## Future Airbus Cabins

<https://www.youtube.com/watch?v=RhRQ2L8-ruI>

### Fill the gaps with the correct words.

Passenger comfort has been constantly increasing since 1. \_\_\_\_\_.

In the future passenger cabins will, of course, be 2. \_\_\_\_\_, and will not use 3. \_\_\_\_\_ materials like metal and plastic.

The materials will be recyclable plant fibres that can be grown to a 4. \_\_\_\_\_ 5. \_\_\_\_\_.

They will be self-cleaning and some may even be designed to repair themselves in case of 6. \_\_\_\_\_.

In fact, most of the aircraft's components could have several different physical states. They could be 7. \_\_\_\_\_ or transparent, or could change their 8. \_\_\_\_\_ like the 9. \_\_\_\_\_ of living creatures.

You could enjoy the seclusion of a private cabin that can turn into an 10 \_\_\_\_\_ or a bedroom or anything else you want thanks to 11. \_\_\_\_\_ 12. \_\_\_\_\_ 13. \_\_\_\_\_.
