INDUSTRY

Work in pairs or small groups.

1. Put five large industries (not companies) on a list.*

2. What are the main industries nearest to where we are now? Can you say why?

3. How would you explain industry 4.0 to someone?

4. Which industry does your company work in?

5. List some industries in which robots, VR and AR are important.

6. Which industries are the most polluting?

7. What protective clothing would you want / need to wear in the following industrial environments?

a) construction site

b) hospital

c) food processing

d) farming

e) microchip clean room

* In English nouns can often function as an adjective, so, for example 'space industry' or 'healthcare industry'.
