

## LEISURE

Discussion. Explain your approximate calculations to a partner:

1. How much (in %) would you like to have more leisure time?  
What would you do with it?

2. How do you spend (in %) your leisure time?

a) sports

b) travel

c) creative activity (making your own music, for example)

d) media (social media, video games, but also including listening to music and watching video)

e) reading paper-based sources such as books and magazines

f) going to cultural events

g) chilling with friends

h) other (explain)

3. Check the first link below, then go to the second one for five minutes. Do as much as possible in the time, and finish the rest for optional homework.
